Subject: Microsoft Trial Settlement

I am writing this to add my voice to the many who have already done so. It's pretty obvious that what was done was wrong. The bully in the software industry has not been punished. In fact, the bully, has been rewarded. Justice was not done.

I've been pretty naive about the legal system my whole life. I had the idea that it was about making things fair and helping people. Having never been to court, I've been able to blunder along with this idea. A couple of years ago, OJ Simpson was on trial. The result was unexpected and appeared wrong. I thought the OJ case was an anomaly. After this Microsoft settlement and a few other examples, I am beginning to see that the purpose of American justice is to help the rich and punish the poor.

May God help us all.

Dan Larson
